PLYMOUTH TUBE COMPANY'S EUPORA MILL COMPLETES ISO/TS 16949:2002 CERTIFICATION AUDIT

Eupora, MS - Plymouth Tube Co.'s Eupora Mill has completed the [ISO/TS 16949:2002](#) surveillance audits 3 and 4. The audits consisted of two auditors for 1.5 days of auditing on all shifts. The Eupora Mill was established in 1985 built to supply the Hydraulic tube market and presently also serves the DOM tube market. Products offered include: [Hydrabrite \(Hydraulic J525\)](#), [DOM A 513 type 5](#) and value add processes such as short cut, end finishing and fabrication.

The aim of ISO/TS16949 is the development of a quality management system that provides for continual improvement, emphasizing defect prevention and the reduction of variation and waste in the supply chain. TS16949 applies to the design/development, production and, when relevant, installation and servicing of automotive-related products, based on ISO 9001:2000 which is specific to the automotive production and relevant service part organization.

Headquartered in suburban Chicago with 10 manufacturing plants across the U.S., Plymouth Tube Co. is positioned for continued global growth supplying the aerospace, transportation, energy, and industrial markets. Over the last five years Plymouth's sales revenue has more than doubled due to market share growth and strategic acquisitions.

Plymouth Tube Co. is a global supplier of specialty carbon, alloy, nickel alloy, and stainless steel tubing for mechanical, pressure, boiler, and hydraulic applications. Steel, nickel and titanium extruded and cold drawn shapes are produced by Plymouth Engineered Shapes.
