PLYMOUTH TUBE CO. ANNOUNCES KARL WEISS AS WINAMAC COLD DRAW GENERAL MANAGER

WARRENVILLE, IL – Tom Centa, Plymouth Tube Company's Carbon and Alloy Group Vice President, has announced Karl Weiss as the Winamac Cold Draw General Manager, effective January 21, 2010.

Weiss was the GM of the Plymouth Tube Hopkinsville operation for seven years, but left for a position as the Vice President, Fabrication Group, at RTI International Metals, Inc. He brings over 26 years of metals and leadership experience to Plymouth Tube Co. and holds a B.S. from Carleton University, Ottawa, Canada, as well as an M.B.A. from Vanderbilt University. His experience is certain to meet the challenge of improving productivity and driving cultural change at the Winamac Cold Draw operation.

Karl Weiss can be reached via email at kweiss@plymouth.com.

About Plymouth Tube Co.

Plymouth Tube Co. is a global tube manufacturer for the energy market offering austenitic, ferritic and superferritic stainless steels sized .500" to 2" OD's, Carbon and Alloy Boiler tubing sized 1.250" to 5.563" OD's. Plymouth Tube proudly manufactures SEA-CURE® Condenser, XtraLowStress® Feedwater Heater, Boiler and Oil & Gas Tubing.

Headquartered in suburban Chicago with 11 manufacturing plants across the U.S., Plymouth Tube Co. is positioned for continued global growth supplying the aerospace, transportation, energy, and industrial markets. Additionally, Plymouth Tube Co. Chicago Processing offers coil slitting as well as a wide variety of specialty edging options. Plymouth recently celebrated its 85th anniversary serving the steel tubing industry with continued manufacturing excellence practices and technical expertise that promotes industrial partnerships with many of their customers.
