### **PLYMOUTH TUBE COMPANY'S TRENT PLANT 3-A AUTHORIZATION RENEWED**

EAST TROY, WI – A recent third party audit was conducted at Plymouth Tube's Trent plant to ensure compliance with the 3-A sanitary standards. Zero findings were indicated and therefore the Trent plant's 3A Symbol authorization has been renewed for an additional five years.

3-A Sanitary Standards, Inc. (3-A SSI) is a non-profit association representing equipment manufacturers, processors, regulatory sanitarians and other public health professionals. 3-A SSI is committed to advancing state of the art hygienic equipment design around the world for food, beverage, dairy and pharmaceutical industries.

Plymouth Tube Company's Trent mill produces SANI-FLOW® Sanitary tubing for food, dairy, beverage, pharmaceutical, and bio-tech applications. SANI-FLOW® Sanitary tubing has IDs that are mechanically polished to 20 microinch Ra or better finish. 10MAX® and 15MAX® Electropolished SANI-FLOW® Tubing can be specified when a contaminant-free inner surface finish with superior corrosion resistance is required.

### **About Plymouth Tube Company**

*Headquartered in suburban Chicago with 10 manufacturing plants across the U.S., Plymouth Tube Co. is positioned for continued global growth supplying the aerospace, transportation, energy, and industrial markets. Over the last five years Plymouth's sales revenue has more than doubled due to market share growth and strategic acquisitions.*

*Plymouth Tube Co. is a global supplier of specialty carbon, alloy, nickel alloy, and stainless steel tubing for mechanical, pressure, boiler, and hydraulic applications. Steel, nickel and titanium extruded and cold drawn shapes are produced by Plymouth Engineered Shapes. Additionally, Plymouth Tube Co. Chicago Processing offers coil slitting as well as a wide variety of specialty edging options.*
