

# OIL & GAS TUBE SOLUTIONS

New well completion technologies are emerging on the horizon, and Plymouth Tube Company is prepared to meet the demands of the flourishing shale gas E&P industry! At Plymouth Tube, you not only get exceptional tubes drawn in the USA, you get access to expert metallurgists and engineers ready to assist you in designing your ideal tube solution. Corrosion resistance, strength, tight tolerances, weight reduction and overall cost savings are only a few of the reasons why our customers choose us.

## VALUE-ADDED SERVICES
